7 key screens of the Honey Bee e-commerce website, each shown on desktop and mobile.

Version 1 · 27 October 2026

DESIGN DIRECTION

Natural, warm and premium

The look takes its cue from raw honey and the Pakistani countryside: warm cream backgrounds, golden honey accents and dark comb-brown text. Generous spacing, rounded cards and a subtle honeycomb pattern make the store feel handmade and trustworthy. Every screen is built mobile-first, because most customers will shop from their phones.

OUR STORY

From the hive to your home, nothing added

We work with 40+ family beekeepers who follow the flowers across Pakistan — sidr trees in Karak, phulai in the Salt Range, wildflowers in Swat. Each batch is cold-extracted, tested in an independent lab, and jarred by hand in Lahore.

- ✓ Traceable to the farm and harvest date
- ✓ Independent purity & moisture tests
- ✓ Fair prices paid directly to beekeepers
